out if protectorate will  
strike, and when.

-Man in white mask says  
Protectorate has shadow  
walkers. Some sort of  
book that Moonglow is  
rumoured of spreading,  
due to their neutrality.

-Ask rhiannon what the  
book is about

-Talon says it's written  
by a politician, doesn't  
believe it was written by  
Tarothin, Swiftar, or  
Spawn as they're not  
politicians. Believes it's  
another party, perhaps  
Ramses, Ishtar, or Thrax.  
They're fairly certain now  
it's not Moonglow, talon  
says "Words are used by  
those without the benefit  
of swords. Moonglow has  
swords aplenty." White  
mask man believes Yolen's  
word due to Moonglow's  
virtue.

Talon: "The protectorate  
obviously has the love and  
affection of the masses,  
otherwise it wouldn't have  
been able to form."

-for humanis voice article,  
can single out a  
non-human member of the  
protectorate, or dig

protectorate and  
exaggerate it.

Stuff about Toren:

Middle aged pale skinned  
male with black hair.

Wears a green doublet  
and kilt, and a deep gray  
cloak. He is a swordsman  
who follows the Xornite  
and its will. Wisps are  
the manifestation of  
Xornia

-A group being trained in  
Moonglow called the  
Arcanamach, led by Vaen.  
Traziel is the name of an  
apprentice of it, there  
seems to be one more, a  
man with long blond  
hair in a ponytail and  
pale skin, but I  
cannot confirm his  
name or if he is one  
of them.

Their philosophy  
is about balance, about  
having no weaknesses.  
They are both warriors  
and mages. "Focus,  
Finesse, and Fortitude are  
the main tenents of our  
Path. Focus helps with  
the emotional."

-Traziel is officially an  
archanamach now, they  
have a special outfit.  
Blue doublet, blue kilt.  
Like Vaen. The other is  
named Tobias.

More on the archanamach  
principles:

-Focus is the mental  
aspect of the strategy.

"The fore knowledge and  
the ability to decide how  
to act. Concentration is  
also necessary.

Finesse is the physical  
ability to be at the right  
point at the right time.

To execute the right move, executing almost a level of physical perfection.

Fortitude is the mental and physical strength to outlast your opponent. Never slowing down, maintaining a solid pace and outlasting anything they throw at you."

-Vaen uses what he calls divine magic, not magery.

Vaen is breeding with a woman named Brianha.
